This communication came from Jerry Sobel, who with others, put this list together.

Ted...As an advocate for Israel, I'm living a dream. Since you published that list of congressmen, I've met more fellow advocates than I had in two years publishing my own articles. To be able to pass data back and forth freely between fellow crusaders of our cause will really help us in the future. I'm presently involved with two groups doing separate projects, people of which I would never had met had you not published the list. I think going forward, linking advocates together and pooling their information would be a great strategy. When we organize into small but passionate groups sharing information with other groups and individuals, it's a powerful tool. Speaking of powerful tools *Israpundit* and some terrific writers certainly fall into that category. Thanks for all you do.

The following list contains the voting record on Israel casted by Senators of the 111th Congress. There may be more information on these people but it's what my research yielded. I welcome anyone or group to extrapolate upon it but most importantly, share the research and get it out to the general public. Remember, this is a spreadsheet which can be pasted onto another spreadsheet and then manipulated as you wish.....Jerrod L. Sobel
